

Student Activity Record System Report

Use of this system is to allow students to be able to record their extracurricular activities and to gain the credits given by those said activities, also to be used by administrators so that they are able to approve or deny requests and maintain an accurate database of all the recorded activities.

Sign-in page

Using the given account credentials both administrators and students log in to their account

If the email or password used does not match the given credentials recorded in the system it will not go forward in to the main dashboard, this ensures that accounts are secured and aren't accessed by anyone who is not supposed to be able to access it.

Main system page students

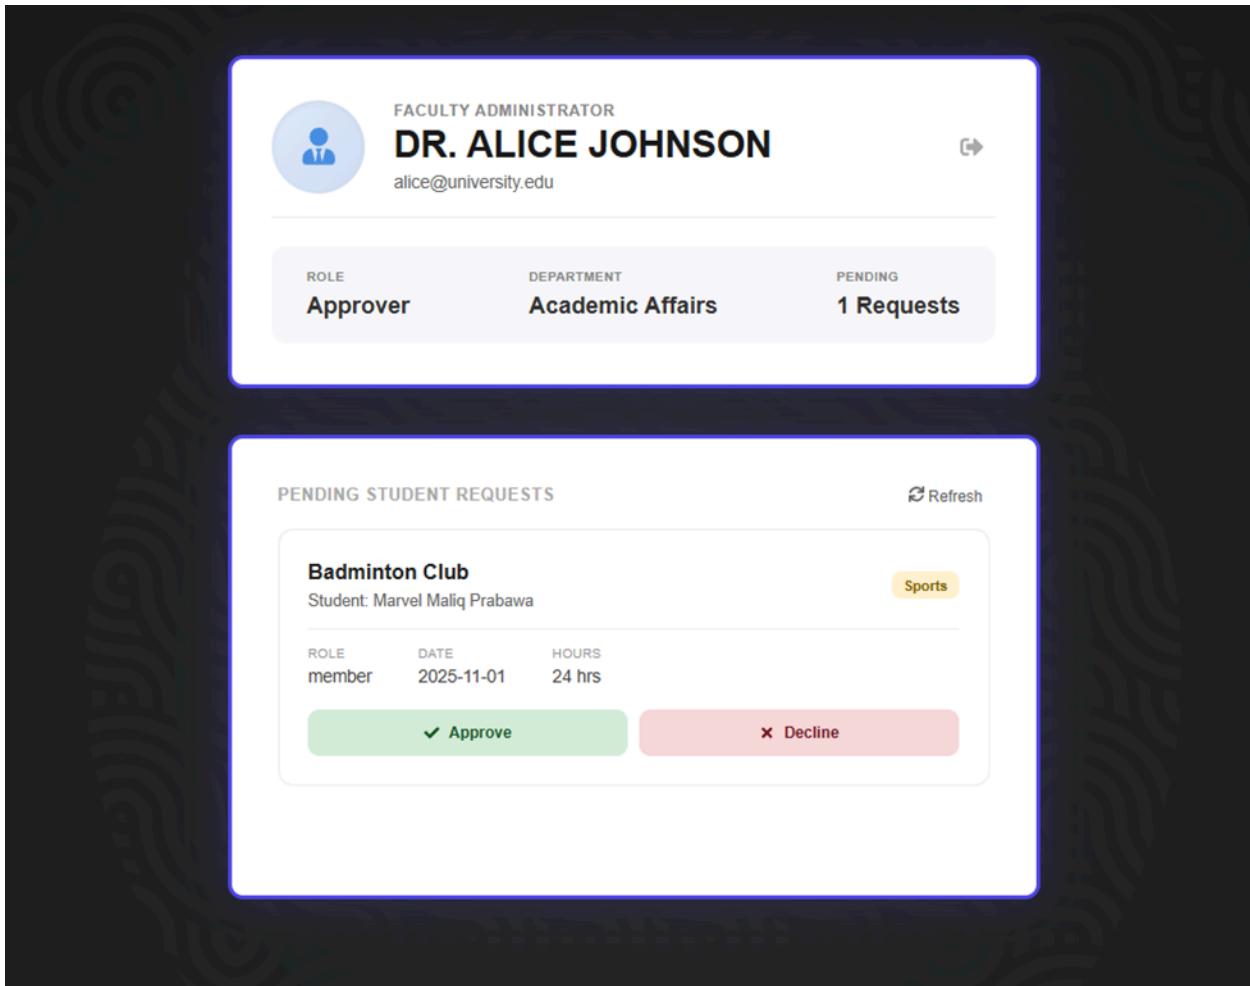

Both administrators and students have differing pages, for students their page includes their basic information such as their major, ID and name.

Includes activities and their type, credits they give and a short description of what they are

The screenshot shows a student's profile page. At the top, it displays a welcome message, the student's name (MARVEL MALIQ PRABAWA), their major (Information Systems), GPA (3.85), and status (Active). Below this, there are tabs for ACTIVITY and RECORDS, with ACTIVITY selected. The main content area is titled "ACTIVITIES AVAILABLE" and lists four activities: Badminton Club, Robotics Workshop, Charity Run Volunteer, and Photography Club. Each activity card includes its name, type, credits, and a brief description.

Activity	Type	Credits	Description
Badminton Club	Sports	3 Credits	Weekly badminton practice.
Robotics Workshop	Academic	5 Credits	Building autonomous robots.
Charity Run Volunteer	Volunteer	2 Credits	Helping organize the run.
Photography Club	Arts	3 Credits	Visual storytelling workshop.

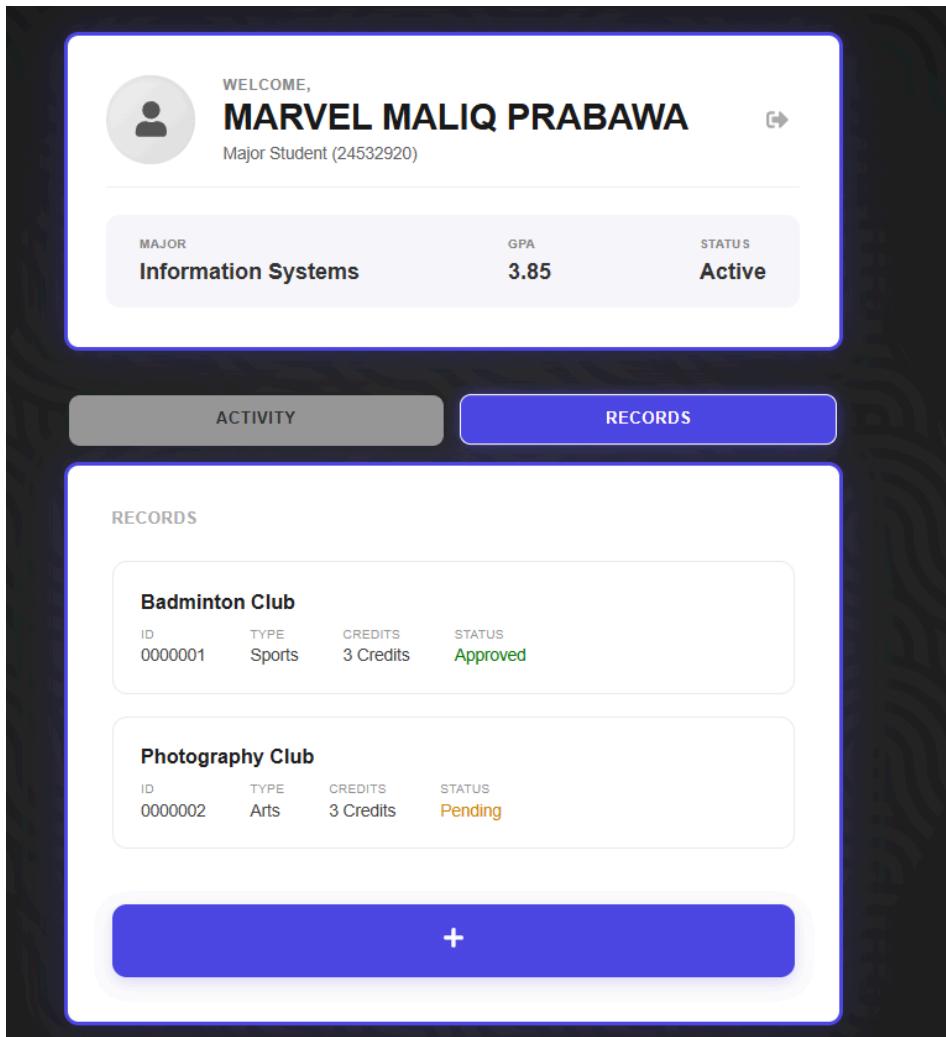

Main system page administrator

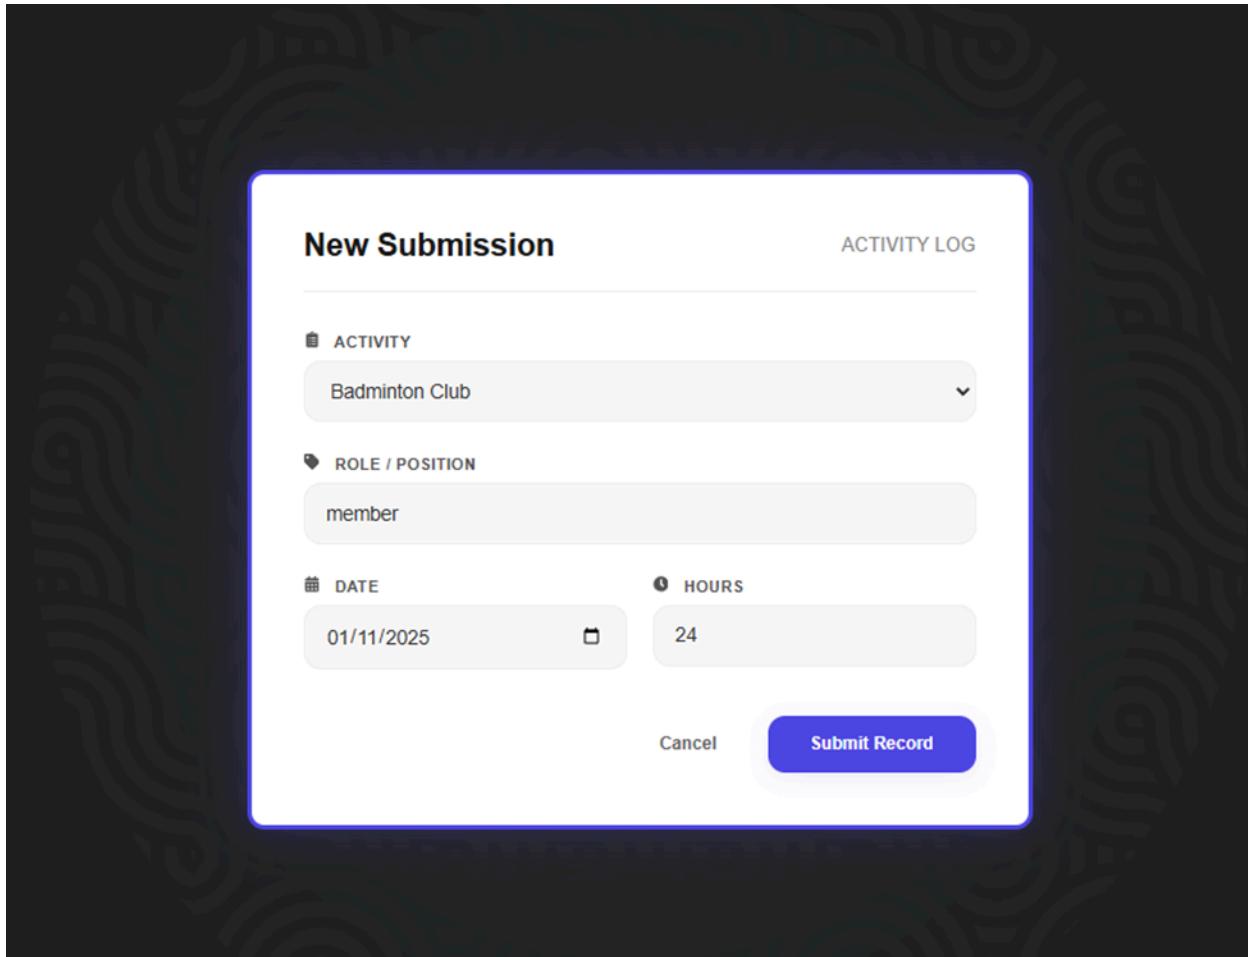

The administrator page has their basic information such as their role and department but also shows how many students have requested for their extra curricular to be accepted.

Bellow the basic information it shows the list of pending approvals, includes the activities which student have submitted the request and the basic information, the administrator then approves or declines the request

Student submission request

Students will first go to records and select plus, this will show a window where they can submit a request. In this page they can also see which recent request have been approved or are still pending

This is what the submission box will look like, students enter the information needed and submit
